

# TOWER GARDEN

## WEEKLY MAINTENANCE

### Replenish water

Fill base until it is 3 inches from the top.

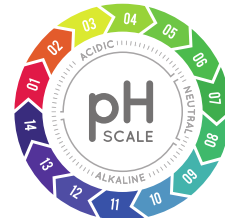

### Add Mineral Blend A & B

You can mix water and the mineral blend in a five gallon bucket prior to adding it to the reservoir (100ml each of A and B for each five gallons of water).

### Test pH

The optimal pH is 5.0-7.0.

### Harvest (if needed)

### Do a light cleaning

Use a toothbrush or cloth to clean the outside.
